

3RD ENGINEERS WANT RECRUITS BEFORE DEC. 15

The 3rd Engineers, Fort Shafter, are out with a whirlwind recruiting campaign in which the men of Hawaii are asked to join.

This is the reason: News has come from Washington, as told in despatches, that after December 15 enlistments will not be allowed except of men whose drafting is wholly impracticable. This is to avoid last-minute evasions of the draft by enlistment.

The 3rd Engineers, one of the crack organizations of Uncle Sam's army, have been instructed to recruit to full strength and wait to get 500 additional men.

Applications should be made at once to the dispensary, Fort Shafter. The engineers offer unusually fine opportunities to young men.

Here is a partial list of the type of trades or professions that will be especially qualified:

Construction workers of all kinds, photographers, lithographers, carpenters, blacksmiths, mechanics, plumbers, pipe fitters, electricians, mechanics, miners, railroad operators of all sorts, lumbermen, telephone men, operators of gas, steam, or electric engines; stockers, clerks, draftsmen, surveyors, riggers, men experienced in the handling of concrete, wood or steel; men experienced in handling animals, and men used to explosives.

Huber Is Ordered To Restrict All Austro-Hungarians

U. S. District Attorney S. C. Huber today received official news of the declaration of war by the United States on Austria-Hungary, together with cabled instructions from U. S. Attorney-General Gregory to apply certain restrictions to Austro-Hungarians resident in Hawaii.

These restrictions are identical with those imposed on Germans as provided for in Sections 9, 10, 11, 12 of the president's original proclamation containing war measures for home protection.

Sections 9, 10 and 11 provide that no alien enemy may leave or enter the United States except on presidential permission, and Section 12 provides for the arrest of alien enemies thought to be dangerous to the country's welfare.

For the present, says the instructions, no other restrictions will be applied.

EXPERT ON TAXES QUITS TO ENTER PRIVATE FIELD

E. R. Cameron, income tax agent at the local internal revenue office for the last 2½ years, has resigned that position to open a private office for specializing in internal revenue law, particularly as regards the income tax and excess profits tax. The resignation was tendered to Washington and became effective Dec. 1.

His business will be that of a revenue law expert, to answer the questions that arise, particularly on the new law. His ability to handle work of this kind is acknowledged by businessmen with whom he has come in contact as a federal officer and by the head of the revenue office. Acting Collector Ralph S. Johnson paid high tribute to Mr. Cameron today, declaring that he is absolutely the best posted and competent man in revenue work that he has ever seen.

"Through Mr. Cameron's resignation," said Collector Johnson, "the government has lost a thoroughly competent officer, and this office will feel the loss materially, for although his work was not directly connected with that of the local force, he assisted much in solving problems regarding the new law."

Mr. Cameron entered revenue work as a stenographer in March, 1912, at San Francisco. From that position he worked to the top in the income tax field service. He has taken an office at 213 Hawaiian Trust building.

CHILD HINTS AT HUN PROPAGANDA AGAINST FOOD PLEDGE "DRIVE"

That the spreading of reports in opposition to the local food pledge campaign may have been the result of mild pro-German propaganda, is hinted at by J. F. Child, federal food administrator for the territory.

Certain Portuguese in Honolulu declined to sign the pledge cards on the ground that they had been informed that, if they had gardens, the government would seize the products; and that, if they stored up supplies in their homes in the event of a shortage, the government would commandeer them.

These reports have already been branded by Mr. Child as absolutely false. He has pointed out that the government has absolutely no intention of doing what these Portuguese have been led to believe it would do. On the other hand, he has explained, the government is exerting every effort to increase the production of food at home.

nice man and sanctioned the fleeing of the women deserters from the battalion and from Petrograd.

Relative to Korniloff and Kaledines, she is fearful for the Jews in that part of Russia which they control. Miss Leontz, accompanied by her mother and father, is bound for Brooklyn, N. Y., where she has a married sister with whom she lived and attended school for a year and a half up to five years ago.

Of the unfortunate victims of the first "Battalion of Death," she says: "One sees so many nice looking girls now in Russia with an arm or leg gone."

Aboard the Rembrandt there are many other Russian refugees headed for America, all of whom look to this young girl for leadership, even as did a Rumanian youth, Scenilleff, and a veteran of both the Rumanian and Russian armies, who is a stowaway aboard the ship.

After being wounded and discharged from the army he made his way to Vladivostok, where he met Miss Leontz, who encouraged him to proceed to America. His money giving out he still tried to continue with her as a stowaway, but was taken from the ship today by the immigration officials. He understands no English.

His chief worry this morning was parting with Miss Leontz and fear he would be placed in jail while detained here. Then it was explained to Miss Leontz's friend that he was to be taken to the immigration station.

This she did not understand until she was told "like Ellis Island." The explanation was clear to her, and she smiled cheerfully again and encouraged him with rapid-fire Russian as he was taken from the Rembrandt.

HATCH FAMILIAR WITH PRINCESS BERNICE'S PLANS FOR KAM. SCHOOLS

Former Judge Francis M. Hatch would be a particularly happy selection as Bishop estate trustee, it was pointed out today, following the recommendation to the circuit court on his behalf yesterday by the Bishop estate estate board.

Judge Hatch was the lawyer who drafted the late Princess Bernice Pauahi Bishop's will and held many and detailed conferences with her. It is said he must have known more than anyone else now living, her plans for the Kamehameha schools, her hopes and ambitions for the schools supported by her estate and which were the prime activity under the estate. As the repository of her trusts and because of his personal and legal qualifications, he is held to be a most logical appointee by the court.

THINKS REBELS WILL CONTROL POWER IN CHINA

That the revolutionary government of China will eventually be the actual government of the republic is the guarded prediction of Bishop W. S. Lewis, recent visitor in Honolulu. For many years Bishop Lewis has been located at Shanghai supervising the work of the Methodist Episcopal church in that part of China.

"There is practically no government at Peking which functions as a government in all parts of the nation. I think, on the whole, the people of China are opposed to the northern government, of which Li Huan Hong is the acting president," the bishop declared.

Bishop Lewis says that the revolutionary government of the southern part of China is not fully organized. After an attempt was made to procure parliament, the southern sympathizers went to Shanghai and remained for some time, after which the capital was established at Canton.

"Now the struggle for supremacy is going on. As I do not think the northern government has the confidence of the people of the north any more than those of the south I think it is doomed to fall. There will have to be an eventual compromise between the two governments," is the conclusion of the bishop.

Both the governments are seeking the cooperation of the Allies and

LOCAL BEER TO SHRINK IN ALCOHOL WHEN NEW PROCLAMATION ISSUED

As soon as the provisions of the president's proclamation reducing the alcoholic contents of beer to 2½ per cent become applicable in Hawaii, they will be carried out by the Honolulu Brewing & Malting Co., St. C. Sayres, secretary and manager, announced today. The alcohol content of the beer manufactured by the local brewery is about 3½ per cent. Manager Sayres says that the reduction, if it has to be made, will in no way affect the brewery's output.

JAPANESE MISSION HOME.

(Special Cable to Niue 24)

TOKIO, Japan, Dec. 12.—The Japanese parliamentary delegation to the United States, headed by T. Masuda, returned to Japan this morning. The delegation arrived on the Canadian Maru of the O. S. K. Line.

Both have declared war against Germany, so there is little danger of division over the European struggle, he thinks. The division of the power of the two governments is marked by the Yangtze river, he adds.

Asked regarding Dr. Sun Yat Sen, first president of the Chinese republic, and who is so well known locally, he said:

"Sun Yat Sen is identified with the southern party, but is not in its leadership. In fact there is no well defined personality in the leadership of the revolutionary party of the south."

COX ENLISTS IN QUAKERS' CORPS FOR WAR SERVICE

Jeel D. Cox, county engineer of Maui, has accepted a position with the American Friends' Reconstruction Service for work in France and will leave for that war zone as soon as he can be released from his civic duties and the selective draft list. Besides being county engineer he is engineer in the Maui loan fund commission.

With regard to the selective draft for the national army, Mr. Cox's name is near the top of the list, his number being 24, so that it will be among the first to be considered by the exemption board.

As the service of the Society of Friends, or "Quakers," as its members are commonly known, which he proposes to join is one of the great humane movements connected with the war, being the reconstruction of public utilities such as water and other works in the cities devastated by the Germans, it is anticipated that Mr. Cox will have no difficulty in procuring exemption.

Mr. Cox is the son of Principal Isaac M. Cox of Kamehameha school. His mother is also a member of the profession and of the college club of Honolulu. Last March he married Miss Helen Horton of Pasadena, Cal., a graduate of Stanford, whom he first met at that institution.

*We have
some pretty
neckwear to
show you*

It is pleasant to think now, as Christmas draws near, there are scores of artists and designers all over the world busy creating things to make you and your friends look prettier than ever.

The necklaces we have received from them for this season's wear are truly delightful to look at—and will add a very important touch to your fall gown.

Organdie, voile collars and collar and cuff sets, dainty designs in Georgette and crepe de chine, embroidered, hemstitched and lace trimmed.
